## FoxBASE/FoxBASE+

FoxBASE was developed by Dave Fulton and Bill Ferguson in December 1984 as a dBASE II substitute that ran with the speed of a fox.

FoxBASE+ was released in 1986. Competitor for Ashton Tate's dBASE III.

[FoxBASE+/Mac](#) © 1989 - Includes the following materials:

Three 3.5" disks labeled "Program Disk revision 1.0", "System Disk" and "Help, Tutorial, Examples, Revision 1.0". All but System Disk marked "(c) Fox Software 1988". System Disk "(c) Apple, 1983-1988". Evaluation copies are marked with red stamp "EVALUATION COPY, NOT FOR RESALE"

Registration card. Evaluation copies are marked with red stamp "EVALUATION COPY, NOT FOR RESALE"

Activation Key, Evaluation copy is marked "EVALUATION COPY NOT FOR RESALE"

**Manuals:**

Reference Guide, booklet

Reference, looseleaf, three ring, vinyl covered binder

Quick Start/Tutorial, looseleaf, three ring, vinyl covered binder

---

[FoxBASE+/Mac Revision 1.1](#), © 1988 - Includes the following manuals:

User's Guide

Quick Start - Tutorial

FoxForm - FoxCode

---

### FoxBASE+/Mac 2.0

Requirements: One 800K diskette drive and hard disk. Supports LaserWriter and Image Writer printers. Box top numbers 096047200015, FMD078138

Fox Software and Microsoft packaging for FoxBASE+ 2.01 for Macintosh. NFR copy is on far right.

### **MS Part numbers:**

Full: 224-096V201

NFR: 224-596V201

FoxBASE+/Mac 2.01 Single User - Label on box sleeve top reads "FOXBASE+ 2.01 SINGLE USER MAC, 9090910, 224-096V201". Box rear 1092 Part No. 38642. Box top label may read "Restricted Version #096047200619". Includes two double density diskettes and the following printed materials:

Registration card, 0393 Part No. 51296, Product number 224-096V201

License card, "FOXBASE+ 2.01 SINGLE USER MAC", 0691 Part No. 19427

Training Centers list, 0692 Part No. 34160

Serial number/Activation key card, 0692 Part No. 34171

### **manuals:**

Commands & Functions, 34166

User's Guide, 34165

Reference Guide, 32 pages, 34168

QuickStart, 34164

Fox Report Forum, 34167

FoxBASE+/LAN Royalty-Free Runtime, version 2.10 - Includes two 5.25" diskettes with Fox Software logo, Runtime Registration Card, Software License Agreement,

3.5" disk order information card, and Activation key form, all in vinyl folder.

---

## [FoxPro 1.x for DOS](#) 1989

1.02

[FoxPro 1.x for DOS](#) - Requires 512K RAM, MS/PC-DOS 2.0 or greater.

FoxPro/LAN requires network software that supports NETBIOS interface and a hard disk drive on a network server. Requires 640K RAM and MS/PC-DOS 3.1 or higher on network workstations.

---

## [FoxPro 2.0 for DOS](#)

Determining FoxPro 2.0 version number: I'm told that in all the extensive documentation with FoxPro, the only place where it says which version you have is on a small piece of paper (approximately 3.5" x 8.5" ) which has the activation key, serial number and is printed "FoxPro Single User" (or perhaps multi-user for the

multi-user LAN version). The top of this paper starts off in bold letters saying: "NOTE: DO NOT THROW AWAY!"

The earlier style of manuals, used by Fox Software, probably included some combination of:

Commands and Functions

Developer's Guide

Getting Started, title page dated August 1991

Interface Guide, title page dated August 1991

Quick Reference, 71 pages, © 1989, 1991

Master Index, 39 pages, © 1989, 1991

---

[FoxPro 2.0 Special upgrade](#) - Seven 720K diskettes with serial number and activation key (required for installation). Eligible users must own FoxPro 1.x, FoxBASE+ for MS-DOS, Clipper, dBASE III+, dBASE IV, DataEase, Paradox, R:Base or Superbase. Includes the following manuals:

Quick Reference, 71 pages, Bar code \*34140\*

Developer's Guide, Bar code \*34137\*

Installation Guide, 16 pages, Bar code \*34142\*

Commands and Functions, Bar code \*34135\*

Interface Guide, Bar code \*34133\*

Master Index, Bar code \*34139\*

### [FoxPro 2.5 for DOS](#)

#### MS Part Numbers:

FULFILL FOXPRO 2.50 DOC KIT: 215-099-148

Competitive (Special) Upgrade, 3.5": 215-095-147

Standard 3.5: 215-095V250, 5.25": 215-099V250

Version Upgrade:

NFR, 3.5": 215-595V250

Special Upgrade for FoxPro/LAN, 6 users: 215-199-249

General license information for FoxPro 2.5 (DOS and Windows). According to the FTP Companion Products and Services Directory, Summer/Fall 1993: You need licenses to match the maximum number of users running FoxPro off a network at any one time. For example, if you have five workers who have the FoxPro database management system on their hard disks, you need five licenses. If you have an additional 10 users who only run FoxPro off the network, you would need to purchase as many additional licenses as there are people who want to run FoxPro **at the same time** - in this case, up to 10 more licenses. If you have FoxPro or most any MS application product loaded on the hard disk of a computer, and you are the person using that computer at least 80% of the time that computer is being used, you may make a second copy for home or laptop use. Note, however, that if other people need to use FoxPro on your home or laptop computer, you must purchase an additional license.

---

[FoxPro 2.50 for DOS PROMO](#). License card marked "FOXPRO 2.50 (3.5)PROMO PC, "PROMOTIONAL SAMPLE, NOT FOR RESALE." Product number 215-595V250. White label on top of box reads "FOXPRO 2.50 (3.5)PROMO PC, 215-595V250"

---

[FoxPro 2.50 for DOS Special Upgrade Edition](#) - For users of FoxBASE+ for MS-DOS and FoxPro 1.0 or higher. Note differences from the competitive upgrade below. Label on top of box reads: "UPDATE FOXPRO 2.50 (5.25) RSLR". Right spine 1292 Part no. 37541. Includes five 1.2MB diskettes with files dated 1/12/93 9:33:22am and the following printed materials:  
License card with inkjet writing "UPGRADE FOXPRO 2.50 (5.25) RSLR", 0992 Part No. 36543  
Welcome card, 57515  
Documentation Offer form, 1292 Part no. 39714, Kit No. 215-099-148  
FoxTALK subscription offer brochure and card  
FoxPro Advisor offer, Part No. 39421

FTP Companion Products and Services Directory for FoxPro Databases, Fall-Winter 1992-93, Part No. 37698

Perspective for FoxPro brochure, Part No. 50021

**Manuals:**

Update, 37550 (yes, this is the only manual)

---

[FoxPro 2.50 for DOS Special Upgrade Edition, 6-User Pack](#) - For users of FoxPro/LAN 1.x or 2.0 **only** (unlimited-user or 6-User Pack versions). Registered owners may acquire an **unlimited** number of FoxPro 2.5 6-User Packs for either MS-DOS or Windows. This unlimited upgrade applies **ONLY** to Microsoft FoxPro 2.5 for MS-DOS and Microsoft FoxPro 2.5 for Windows, and does not apply to any other Microsoft version or competitive upgrade. This offer expired April 30, 1993.

---

[FoxPro 2.50 for DOS Special Upgrade Offer](#) - For users of FoxPro, dBASE, Paradox or other database products. Box sleeve right side marked: 0293 Part No. 51370. White label on top of sleeve reads: "UPGRADE FOXPRO 2.50 (3.5) RSLR PC". Includes eight 720K diskettes with files dated 1/12/93 and the following printed materials:

License card with inkjet writing "UPGRADE FOXPRO 2.50 (3.5) RSLR PC", 0691 Part No. 19427

Live activation key carbon paper form. Note that this part of the product is all labeled Fox Software. No Microsoft name or logos. Includes serial number, demonstration activation key, date and an activation key which can only be read by opening the sealed envelope.

**Manuals:**

## [Visual FoxPro 3 Professional for Power Macintosh](#)

Info thanks to J.R. Diskinson: Version : 3.0b - Version Date : May 7, 1996. CD Disk Assy. : 215-088-002, 0396 Part No. 69065. Version : 3.0b

I am a bit confused about the version history of the Fox/Mac line. I've seen

VFP/Mac 3.0 mentioned as well as versions 3.0a and 3.0b, but after trawling through the MS Knowledge Base (or whatever they're calling it this week) I found a buglist for all the Fox products produced by MS on all platforms. This lists versions 3.0 and 3.0b for Windows but only version 3.0b of VFP/Mac. This might be explained by the following from the MS VFP FAQ (my archived copy states this information was last updated Feb. 5, 1996): 'Visual FoxPro version 3.0a is a Double Byte Character Set (DBCS) enabled release for the Far East only. Visual FoxPro 3.0a is not available in the United States market. Visual FoxPro version 3.0b is a worldwide release that supports DBCS and is also the version that synchronizes Visual FoxPro with the final releases of Win32s and Open DataBase Connectivity (ODBC).' If version 3.0b for Windows was shipping by the time this FAQ was updated and since the Mac version of VFP wasn't released to manufacturing until May 96, this suggests that there was only ever a Mac version 3.0b for sale worldwide outside the Far East. Do you know different?

---

Visual FoxPro 3.0 Beta 2, Macintosh, February 1996  
Visual FoxPro 3.0 for Macintosh, Beta-2 Refresh

---

Competitive/Version Upgrade: VFP PRO 3.0 MAC EN NA C/V CD: 340-00077.  
You qualify for this upgrade if you are a licensed user of FoxPro 2.5 or later for Macintosh, Windows, MS-DOS, or UNIX, Visual FoxPro 3.0 for Windows, Claris Filemaker Pro 2.1 or later, or ACI 4D 3.0 or later.

---

Academic edition packaging shown. VFP PRO 3.0 MAC EN NA CD AE: 340-00074  
License card is identical to retail card. Only the registration card overprint, box top product label, and sticker on box front indicate AE.

---

In all license type boxes, the following are included:

Visual FoxPro Resource Guide, Volume 1, 52 pages, Part #61847

**Manuals include:**

Visual FoxPro Language Reference, 966 pages, Document No. FX69101-0396, manual rear bottom barcode label 69101

Visual FoxPro Installation Guide and Master Index, 173 pages, Document No. FX69061-0396, manual rear bottom barcode label 69061

Visual FoxPro Professional Features Guide, 239 pages, Document No. FX69099-0396, manual rear bottom barcode label 69099

Visual FoxPro Developer's Guide, 529 pages, Document No. FX69062-0396, manual rear bottom barcode label 69062

Visual FoxPro Quick Reference, 197 pages, Document No. FX69103-0396, manual rear bottom barcode label 69103

Visual FoxPro User's Guide, 226 pages, Document No. FX69058-0396, manual rear bottom barcode label 69058

---

Product # 340-00073, Box top label "VFP PRO 3.0 MAC EN NA CD". Box sleeve rear 0396 Part No. 69296. System requirements: Any Power Macintosh compatible with 601 or higher processor. System 7.1.2 operating system or later. 8MB or RAM (16MB recommended), 14MB/74MB disk space for minimal./full install.

One CD we received (unknown sub-version) showed:

CD jewel case front insert rear 0396 Part No. 69063

CD face, Disc Assy. 215-088-002, 0396 Part No. 69065

Jewel case rear insert rear 0396, bar code label 69067
